

Excerpted from "The Parent Trap"  
—*Publishers Weekly* (March 14, 2011)

Finally, a book about fathers that may appeal to men and women alike is a May Rodale release, *Our Fathers, Ourselves: Daughters, Fathers, and the Changing American Family* by Peggy Drexler, author of *Raising Boys Without Men*, assistant professor of psychology in psychiatry at the Weill Medical College of Cornell University, and past guest on PBS, Today, and GMA. The book takes on the fallout that can be the result of father-daughter relationships, positing that all women have "daddy's girl" issues that wield a lifelong influence.

"While many books have addressed the relationship between parents and their children from a single-gender perspective—mothers and daughters, father and sons—Peggy Drexler offers the first serious investigation into the role of fathers in the lives of their daughters," says Julie Will, Rodale executive editor. The title "is sure to have people talking."
